# INDEX

## PENDANTS

A pendant light, sometimes called a drop or suspender, is a lone light fixture that hangs from the ceiling usually suspended by a cord, chain, or metal rod.

1-24

## CEILING LIGHTS

A surface mounted light sits on top of a flat surface like the flat part of a ceiling and protrudes away from the surface. Surface mounts that are specifically mounted to the ceiling are also called ceiling mounts.

1, 3-6, 8, 10-14

## TABLE LAMPS

Table lamps are great tools to define functional zones within a room and accentuate an emotional impact of specific spaces. Moreover, high sculptural qualities of floor and table lamps eddying and architectural quality details into the rooms. Thoughtful choice of quality table lamps always will pay off, by bringing you every day joyful experience in your home for many years to come.

3-8, 10, 13, 27

## FLOOR STANDING LAMPS

Floor lamps can either be used as a stand-alone lighting solution to focus on a particular spot in a room or with other lights that are in the same family. They complement all types of lights – from romantic chandeliers to table lamps.

3-8, 12, 26

## WALL SCONCES

A wall sconce is a type of lighting fixture that's mounted to a wall rather than hanging from a ceiling. Unlike chandeliers, pendants, a wall sconce's light points upward rather than downward. Wall sconces can add light to a dark corner in any room and help you make the room seem larger. In a room with a chandelier, matching wall sconces can fill in light around the sides of the room and balance the light from the chandelier, which might otherwise seem harsh.

4-6, 9, 12-13

## CHANDELIERS

a chandelier is a light fixture that hangs from the ceiling. While most commonly used in the dining room, chandeliers can be used to create a statement in any room such as the living room, bedroom, and patio. Chandeliers feature multiple lamps, often in multiple tiers, and are used for ambient lighting.

24-26

## DESK LAMPS

A desk lamp is a portable task light that sits on a desk or table to provide targeted illumination for accomplishing tasks such as computer work, reading, writing, drafting, crafting, bookkeeping, sewing, knitting, and painting. Desk lamps provide adjustable illumination to ensure task visibility and ergonomic comfort.
