DECORATIVE LIGHTING INDEX

PENDANTS

1-23

A pendant light, also known as a drop or suspender, is a single fixture that hangs from the ceiling, typically suspended by a cord, chain, or metal rod.

CEILING LIGHTS

1, 3-5, 7, 9-13

A surface-mounted light sits on a flat surface, like a ceiling, and extends outward. When mounted specifically to the ceiling, it's referred to as a ceiling mount.

TABLE LAMPS

3, 5, 7, 9-13, 26

Table lamps are excellent for defining functional zones and enhancing the mood of specific spaces. Their sculptural designs add architectural interest to a room. A thoughtful choice of quality table lamps can bring daily joy and lasting beauty to your home for years to come.

FLOOR STANDING LAMPS

3, 7, 11

Floor lamps can serve as standalone lighting to highlight specific areas or be used alongside other fixtures in the same style. They complement a variety of light sources, from romantic chandeliers to table lamps.

WALL SCONCES

4-5, 8, 11-12

A wall sconce is a lighting fixture mounted to the wall, directing light upward rather than downward like chandeliers or pendants. Wall sconces can brighten dark corners and create a sense of spaciousness. When paired with a chandelier, matching sconces provide balanced lighting, softening the overall effect.

CHANDELIERS

23-25

A chandelier is a ceiling-mounted light fixture, traditionally used in dining rooms but perfect for making a statement in any space, including living rooms, bedrooms, and patios. Featuring multiple lamps—often arranged in tiers—chandeliers provide ambient lighting.

DESK LAMPS

26

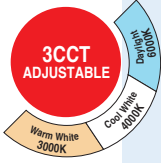

A desk lamp is a portable task light designed to sit on a desk or table, offering focused illumination for activities like computer work, reading, writing, crafting, and more. These lamps provide adjustable lighting for optimal visibility and ergonomic comfort.
